# 25mm Diameter Sign Supports for panels with holes

The king of all wall mounts, these premium quality sign supports feature a three part fitting for easy installation and durability.

All of these 25mm fittings incorporate a 6mm lip which has been designed to make installation of heavy panels simple and straight forward – panels can be located on the lip during installation, making it possible for large panels to be easily installed by a single person.

| REF     | PANEL HOLE<br>SIZE     | PANEL<br>THICKNESS | MOUNTING<br>SCREW SIZE | FINISHES              |
|---------|------------------------|--------------------|------------------------|-----------------------|
| WM15    | WM15/PC 12mm WM16 WM17 |                    |                        | Satin Chrome          |
| WM15/PC |                        | 6 - 20mm           | No. 10                 | Polished Chrome Satin |
| WM16    |                        | 6 - 20mm           | NO. 10                 |                       |
| WM17    |                        |                    |                        | Chrome                |

#### Create impact with a double depth sign

This durable support allows you to make a strong design statement by placing one panel in front of another.

Use PC31 with two fittings to create a double depth sign.

| REF                | PANEL THICKNESS |  |  |  |
|--------------------|-----------------|--|--|--|
| PC31               | UP TO 6mm       |  |  |  |
| Brass centre piece |                 |  |  |  |

## Secure multiple panels with a single fitting

This versatile spacer allows multiple panels to be mounted close together without the need for holes.

It is compatible with WM15, WM16 and WM17.

| REF  | PANEL THICKNESS |
|------|-----------------|
| WM20 | UP TO 6mm       |

# **16mm Diameter Sign Supports** for panels with holes

Premium quality 16mm diameter supports for smaller sign applications

| REF        | PANEL HOLE<br>SIZE | PANEL<br>THICKNESS | MOUNTING<br>SCREW SIZE | FINISHES        |
|------------|--------------------|--------------------|------------------------|-----------------|
| WM05       | - 6mm              | UP TO 6mm          | No. 10                 | Satin Chrome    |
| WM05-13    |                    | UP TO 13mm         |                        |                 |
| WM05-13/PC |                    | UP TO 13mm         |                        | Polished Chrome |
| WM05L-20   |                    | UP TO 20mm         | 140. 10                |                 |
| WM18       |                    | UP TO 13mm         |                        | Satin Chrome    |
| WM19       |                    | ANY                |                        |                 |

## Spacer for use with panels without holes

These plastic spacers enable a sign, panel or acrylic pocket to be mounted using either 16mm premium supports without the need to drill holes.

The spacer simply slots into the support to create a lip onto which the panel is located.

| REF   | THICKNESS |  |
|-------|-----------|--|
| WMS-2 | 2mm       |  |
| WMS-3 | 3mm       |  |

#### 12mm Diameter Support

| REF     | PANEL HOLE<br>SIZE | PANEL<br>THICKNESS | MOUNTING<br>SCREW SIZE | FINISHES        |
|---------|--------------------|--------------------|------------------------|-----------------|
| WM12    | 0                  | UP TO 12mm         | No. 6 Satin            | Satin           |
| WM12/PC | 9mm                | 0F 10 12mm         |                        | Polished Chrome |

## Supports for panels without holes

Can be used either vertically, horizontally or at any angle – they clamp the edge of the panel, so no holes are required.

Signs are 19mm from wall

| REF  | PANEL<br>THICKNESS | MOUNTING<br>SCREW SIZE |  |
|------|--------------------|------------------------|--|
| WM09 | UP TO 7mm          |                        |  |
| WM01 | UP TO 7mm          |                        |  |
| WM02 | UP TO 10mm         | No. 10                 |  |
| WM03 | UP TO 7mm          |                        |  |
| WM04 | UP TO 10mm         |                        |  |

## **Everyday** Value Range

A range of two-part aluminium 16mm diameter sign supports that offer outstanding value.

| REF     | PANEL HOLE<br>SIZE | PANEL<br>THICKNESS | MOUNTING<br>SCREW SIZE | FINISHES  |
|---------|--------------------|--------------------|------------------------|-----------|
| WM21/AL | 10                 |                    |                        | Satin     |
| WM22/AL | 12mm               | UP TO 9mm          | No. 8                  | Aluminium |

#### **Finishes**

The standard finish for all supports and cable or rod systems is Satin chrome. Other finishes available on request.

## **Designer acrylic signs** to suit any requirement

Acrylic panels can be supplied in virtually any colour, shape and size to suit your requirements.

All signs can be supplied either as blanks for you to print or we can provide a comprehensive print service for you.

The choice is yours, just tell us what you want. Just supply the artwork and we will print in single or four colour.

#### Value Packs - huge savings

We have found many customers have been ordering small amounts on a regular basis and when you add up the carriage this is really an unprofitable way to purchase.

Save on the price of fittings and benefit from a vastly reduced delivery charge.
