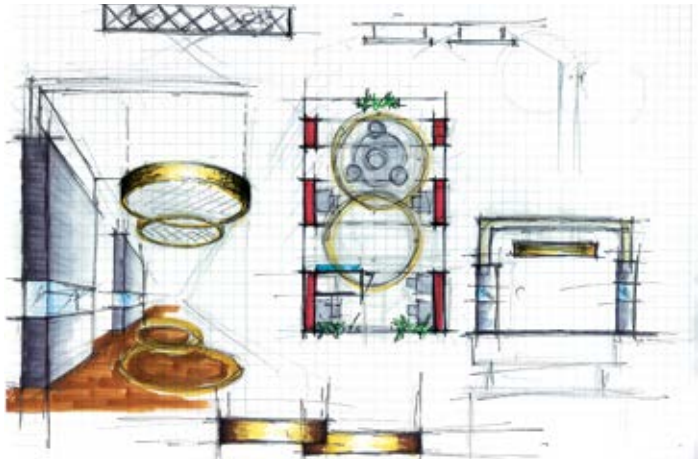
SYMA® We build inspiration

INSPIRING SYSTEMS
Systeme und Produkte für Messebau und Architektur

SYMA – das heisst auch: eine Intelligenz für sich. Mit Systematik wird unser Name weltweit assoziiert. Doch jede Entwicklung von SYMA lebt auch von Inspiration. Und soll inspirieren. Konkret: Wir entwickeln und realisieren Profilsysteme mit Verbindungstechnik und Zubehör für Messebau, Architektur und industrielle Raumausbauten. Die modularen Systemkomponenten von SYMA eröffnen einen beinahe unbegrenzten Spielraum in der Kombination.

INSPIRING SYSTEMS
Systems and products for exhibition construction and architecture

SYMA – also known as an intelligence in its own right. Worldwide, our name is synonymous with system. But every single SYMA development also lives on inspiration – and is to inspire others, too. To sum up: Our specialty is the development and realization of profile systems with joining technology and accessories for use in exhibition construction, architecture and industrial room extensions. Used in combination, SYMA's modular system components open up virtually unlimited creative potential.



Vertrauen durch Leistung

SYMA berät. SYMA kreiert Design. SYMA konzipiert, plant, konstruiert und realisiert. Unser Angebot beruht sowohl auf Miete wie auf Kauf. Wir leisten individuelle Erfüllung. Vom kleinen Juwel des Modulstandes bis zum generösen, in hohem Masse repräsentierenden Grossprojekten. Und in erweiterten Bereichen wie Ladenbau, Showroom, POS, Display, Gebäudetechnik und Maschinenverschalungen.

Trust based on performance

SYMA gives advice. SYMA creates designs. SYMA plans, engineers and executes. Our offer includes both rental and purchased products. We provide custom solutions. From small but perfectly formed modular stands to generously proportioned major projects. We are also active in numerous other areas, including store interiors, showroom design, POS, displays, building services technology and machine safety enclosures.

«Einer für Alles»

Das genial einfache Fertigrahmen-System besticht durch seine Individualität. Die einzelnen Rahmen können beliebig an- und übereinander kombiniert werden. Zur Beplankung sind alle Optionen offen. Feste Platten werden mit der Kletttechnik angebracht. Sie entscheiden selbst über die Materialisierung. Beidseitig Platten, beidseitig Textil oder einseitig Platte und einseitig Textil – alles mit dem gleichen Rahmen! Beplankt ist vom Aluminiumrahmen nur noch ein Minimum sichtbar und kaum wahrnehmbar. Die filigranen Stossverbindungen werden sogar häufig von den Designern als gestalterisches Element in die Konzepte eingebaut. Mit dem breiten Zubehörprogramm ist das System ein Alleskönner.

«One for All»

This brilliantly simple prefabricated frame system allows tailor-made solutions. The individual frames can be combined next to or above each as required. The entire range of panelling options are possible. Fixed panels can be attached with the hook-and-loop fastening system. Panelling on both sides, textile on both sides or one side panel / one side textile – all options can be achieved with the same frame! Once panelled, the aluminium frame is barely visible or noticeable. In fact, the slimline joints are frequently incorporated in the concept as a design element. And with its wide range of accessories, the system is a complete all-rounder.

- Kompatibel mit allen SYMA Systemen
- Der gleiche Rahmen für sämtliche Materialien
- Robuste und effiziente Verbindung
- Einzigartiges Zubehörprogramm
- Hohe Qualität und Wiederverwendbarkeit

- Compatible with all SYMA systems
- The same frame for all materials
- Robust and efficient connection
- Unique programme of accessories
- High quality and reusability

Stabilität, Sicherheit, Kreativität

Der Spielraum der SYMA-Profilsysteme garantiert Stabilität, Sicherheit, und fördert die Kreativität. Die weltweit bekannten und erfolgreichen SYMA-Systemlösungen basieren auf dem harmonischen Zusammenspiel von ausgereifter Technik und individueller Gestaltung. Unsere Systemlösungen sind unschlagbar in punkto Schnelligkeit und Flexibilität. Problemlos sind Adaptionen, Ergänzungen und Erweiterungen möglich.

Stability, reliability, creativity

The flexibility offered by SYMA profile systems guarantees stability, reliability and creativity. The globally renowned and successful SYMA system solutions are based on the harmonious combination of sophisticated technology and bespoke design. Our system solutions are unparalleled in terms of speed of erection and flexibility. They can be adapted, altered or expanded without problem.

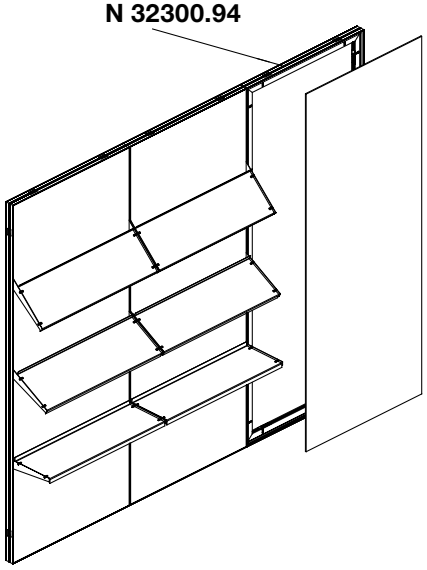
N 32300.94



Rahmen komplett gestanzt
rundum Stanzung für Tablarträger,
ohne Verschlüsse 3084.5
ohne Hakenband 2168.3

Technische Details siehe 6.01
Rahmen können auch 90° gedreht eingesetzt werden
Weitere Grössen auf Anfrage

Complete frame punched
all sides punched for console
without lock 3084.5
without hook tape 2168.3

technical details on page 6.01
frames can be inserted in a 90° angle
other sizes on request
